

1. Open the game website
2. Have one player host a game by clicking “Host Game” in the top left.

**Connection Setup**

Host Game

Access Code

Find Game

---

Reset

3. This should generate a code next to the button.

**Connection Setup**

Host Game

0BQH

Access Code

Find Game

---

Your Move

Reset

4. Have the other player paste that code into the “Access Code” section in the top right and click “Find Game”

**Connection Setup**

**Opponent's Move**

5. The host goes first (the player who created the game), have them select a square.

**Connection Setup**

**Your Move**

	X	

6. Take turns selecting unchosen tiles.
7. The goal of the game is to get 3 of your symbols in a row or to stop your opponent from getting 3 in a row.
8. The game ends when a player gets 3 in a row or there are no more possible moves.
9. To start another game, click the reset button under the game board and repeat the rules starting from step 2.
